EDUCATION

The University of Texas at Austin

Bachelor of Science in Computer Science

GPA: 4.0 / 4.0

Austin, TX

May 2029

Relevant Coursework: Data Structures, Operating Systems, Computer Networks, Machine Learning, Computer Architecture, Object Oriented Programming, Algorithms, Discrete Math, Probability & Statistics, IOS Dev, Cloud Computing, Virtualization

EXPERIENCE

Child Poverty Action Lab

June 2025 - August 2025

Software Engineering Intern | R Shiny, Leaflet, GIS, R, Data Visualization, Git

Dallas, TX

- Developed an interactive housing analytics platform utilizing **R Shiny** and **Leaflet** to visualize affordability, displacement, and demographic trends across **50+ ZIP codes, 100+ neighborhoods, and 200+ school campuses**
- Engineered **dynamic filtering and geospatial querying** functionality by integrating public housing datasets, enabling nonprofits and legal aid organizations to identify high-risk communities more efficiently
- Architected **automated reporting workflows** utilizing GIS analysis and reactive dashboard components, reducing housing research time from **hours to minutes**

Freightcom

June 2024 - August 2024

Software Engineering Intern | Java, Jira, Agile Development, Software Testing,

Dallas, TX

- Collaborated with software engineers to develop and validate **200+ platform features** supporting shipment booking, tracking, and logistics management for **10,000+ business customers**
- Engineered **integration testing and defect analysis workflows** across **REST APIs** and backend services, improving release stability and accelerating issue resolution during Agile development cycles
- Executed **100+ structured test scenarios** spanning customer-facing applications and core logistics systems, contributing to a **30% reduction in production errors** and improved platform reliability

Code2College

June 2023 - August 2023

Software Engineering Intern | Kotlin, Android Studio, Firebase, Git, Cloud Firestore, Mobile Development

Dallas, TX

- Developed a mobile lesson-sharing application utilizing **Kotlin and Android Studio**, supporting content distribution for **2,500+ students**
- Engineered **Cloud Firestore and Firebase Authentication** integrations to manage user accounts, lesson data, and real-time content updates

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Texas Technology Access Program

August 2025 - Dec 2025

Accessibility Technology Ambassador | OpenSCAD, CAD, 3D Printing, AAC Systems, Disability Advocacy

Austin, TX

- Collaborated with **10+ clinicians, researchers, and accessibility professionals** to evaluate **AAC technologies** for individuals with autism and communication disabilities
- Designed **15 CAD keyguard prototype devices** utilizing **OpenSCAD** and **CAD** modeling techniques to improve communication-device accessibility for nonverbal autistic individuals with limited motor skills

PROJECTS

Hani (Visit) | HTML, CSS, JavaScript, Web Speech API, Python, Accessibility Engineering

- Developed a web-based **AAC** platform utilizing **HTML, CSS, and JavaScript** to deliver customizable speech-generation interfaces for **20+ nonverbal autistic users**
- Engineered **dynamic vocabulary management systems, text-to-speech workflows, and personalized communication boards**, streamlining communication for individuals with complex communication needs
- Optimized **user interface accessibility and navigation efficiency** through iterative testing, improving usability for nonverbal autistic individuals with limited motor skills

TECHNICAL SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, HTML/CSS, Bash, SQL, Groovy, Golang

Frameworks/Libraries: TensorFlow, Scikit-Learn, Pandas, NumPy, R Shiny, Leaflet

Tools/Technologies: Git, GitHub, Firebase, Android Studio, OpenSCAD, CAD Modeling, Socket Programming, TCP/IP, REST APIs, GIS, Agile Development

Certifications: AWS Cloud Practitioner
